Inset cabinetry is a time honored design. Craftsmen generations ago created fine inset cabinetry for their homes and select clients. Today, you can have the clean, distinctive lines of inset cabinetry, built with quality StarMark Cabinetry construction.

For more information on inset cabinetry, visit www.starmarkcabinetry.com or ask your StarMark Cabinetry dealer for the *Inset Cabinetry* brochure.

To best illustrate the profiles, the door styles on these two pages are shown in Maple finished in Natural.

To best illustrate the profiles, each door is shown in Maple finished in Natural.

StarMark Cabinetry offers Rustic Alder, Rustic Cherry and Rustic Hickory. With Rustic wood types, wide color variation may occur, and sapwood will be more prominent. There will be "character" spots (knot, burl, blemish, etc.) on the center panels. They may also be on the stiles and rails of the door, and on the drawer front, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knots.

custom colors and distressing

We can create cabinetry that matches any paint swatch. Bring the swatch to your StarMark Cabinetry dealer—that's all it takes to start your custom Tinted Varnish project.

If your heart's desire is a color you spied in a magazine or in a fabric, or you have furniture you want to match or complement, talk to your StarMark Cabinetry dealer about preparing a sample of wood that will guide us in creating a stain for your cabinetry. A custom stain takes more legwork (from both you and us) than a custom paint, but we'll put our heart into it. With good direction from you and our experience creating custom stains, the legwork will result in a beautiful finish you'll be proud to have in your home.

We can custom distress your custom color! Select the characteristics that you like and we will artfully apply them.

Chiseling (as seen in Homestead) | Dips | Knife cuts
 Light chain distressing | Padding (as seen in Chateaux)
 Rasping | Rounded corners | Rub through on flat surfaces
 Spattering | Speckling (dark brown, as seen in Chateaux,
 and light brown, as seen in Linen) | Worm holes

Milan door style in Cherry finished in Chateaux Toffee

specialty colors

CHATEAUX

Chateaux is created by randomly applying several distressing techniques, softening all edges, padding the edges to create shadowing, and adding speckling to accentuate the distressing. A clear top coat is applied. The finish is oven cured for durability.

Tudor door style in Cherry finished in Chateaux Brittany

Alexandria inset door style in Cherry finished in Chateaux Cappuccino

Tudor door style in Rustic Cherry finished in Chateaux Nutmeg

Harmony door style in Cherry finished in Chateaux Oregano

HOMESTEAD

Several distressing techniques are applied randomly and heavily. Distressing marks are rounded corners, worn edges, knife cuts, abundant worm holes, rasping, dips, light chain distressing and chiseling. They are applied to drawers, doors and throughout the cabinetry. A protective topcoat completes the look. The finish is oven cured for durability. Homestead Fog and Homestead Red are shown here. Homestead is available on Alder and Rustic Alder door styles.

Hanover door style in Alder finished in Homestead Fog

Huntingford door style in Alder finished in Homestead Red

Danburg inset door style in Alder finished in Homestead Red. Shown with optional five-piece drawer headers.

specialty colors

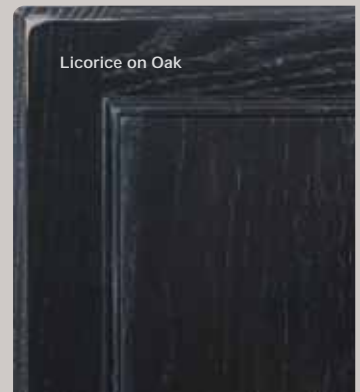

AMARETTO & BORDEAUX

Amaretto and Bordeaux start with Black tinted varnish that is given rounded and worn corners. Additional worn areas on center panels expose golden butterscotch tones on the Amaretto finish and beautiful burgundy tones on the Bordeaux.

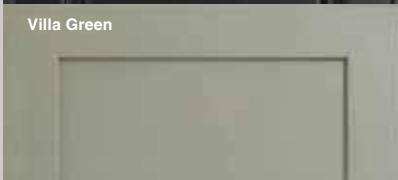

LICORICE

Licorice is Black tinted varnish. The finish is rubbed to expose worn edges and rounded corners, then Nickel glaze is applied to accent the wood and door profiles. The Licorice finish includes light chain distressing.

VILLA

The Villa finish for Maple results in a look that suggests brush strokes along all finished surfaces. Variation of color and finish will blend throughout the cabinetry.

OATMEAL

Oatmeal is a warm Maple finish achieved by hand-applying Champagne stain with Chocolate glaze. It's accented with worn edges, rounded corners and light chain distressing.

LINEN

StarMark Cabinetry's beautiful Linen finishes on Maple feature Latté glazing and speckling for a softer tone, and rounded corners for an heirloom feel. Available in three distinct yet related colors—Linen White, Linen Ivory and Linen Mushroom.

old world distressing

Arlington door style in Cherry finished in Paprika with Chocolate glaze and Old World Distressing

Venice door style in Maple finished in Shale with Ebony glaze and Old World Distressing

Available on Alder, Cherry, Hickory, Maple, Oak and Quarter Sawn Oak, this look blends your new cabinetry with today's popular distressed furniture pieces. Distressing techniques are randomly applied to the face of your cabinetry throughout the design, and include **1. rounded corners 2. rasping 3. dips 4. knife cuts 5. worm holes 6. worn edges and 7. light chain distressing.** Rest assured that your new yet distressed cabinetry will have a beautiful finish with some rub-through areas and a glaze to protect the distressing and finish for many years to come.

Rapids door style in Maple finished in Peppercorn with Chocolate glaze and Old World Distressing

Augusta door style in Cherry finished in Toffee with Ebony glaze and Cottage Distressing

Cottage Distressing is created by sanding through the finish to expose **1. rounded corners** and **2. worn edges**. Adding glaze brings out the wood's unique textures. **3. Light chain distressing** is optional. A protective topcoat completes the look. Cottage Distressing is available on any stain with glaze combination, and on any Tinted Varnish with glaze combination.

Harbor door style in Maple finished in Mushroom with Chocolate glaze and Cottage Distressing and the Bridgeport door style in Cherry finished in Chestnut. Shown with optional five-piece drawer headers.

StarMark Cabinetry is CARB II compliant and ESP certified.
Kitchen Cabinet Manufacturers Association
Environmental Stewardship Program
All products impact the environment.

StarMark Cabinetry is proud to be one of the first cabinet manufacturers certified through the Environmental Stewardship Program (ESP). The Kitchen Cabinet Manufacturers Association (www.kcma.org/consumer) established ESP to certify cabinet manufacturers who prove they are using sustainable practices and products. The ESP provides tangible benchmarks by which cabinet manufacturers can be judged. Certification must be earned yearly.

StarMark Cabinetry is CARB II compliant. This means 100% of StarMark Cabinetry's products are compliant with the California Air Resources Board (CARB) Airborne Toxic Control Measure (ATCM) to reduce formaldehyde emissions from composite wood products including hardwood plywood (HWPW), medium density fiberboard (MDF), and particleboard (PB) (Title 17, California Code of Regulations §93120-93120.12). In laymen's terms, it means that StarMark Cabinetry complies with the nation's strictest regulations regarding formaldehyde.

StarMark's CARB II compliance coupled with our ESP certification is reassuring for homeowners who want to be certain they are doing business with a company that uses environmentally friendly manufacturing materials and processes.
